

Make your
talent thrive!

The enterprise LMS you can trust.

eFront is a Learning Management System geared towards businesses with scalability, extensibility, security and advanced customization requirements.

Trusted by hundreds of organizations around the world, eFront is currently distributed and supported through an international network of partners.

eFront is created by Epignosis, a trusted eLearning software vendor with over 15 years of experience.

Why do you need eFront?

Employee Training

From candidate screening and induction training to continuous development and performance appraisal, eFront enables you to train your employees and develop their skills to their full potential.

Compliance Training

eFront provides full support for online compliance training on laws, regulations and company policies using custom certificates, expiration policies and custom reports.

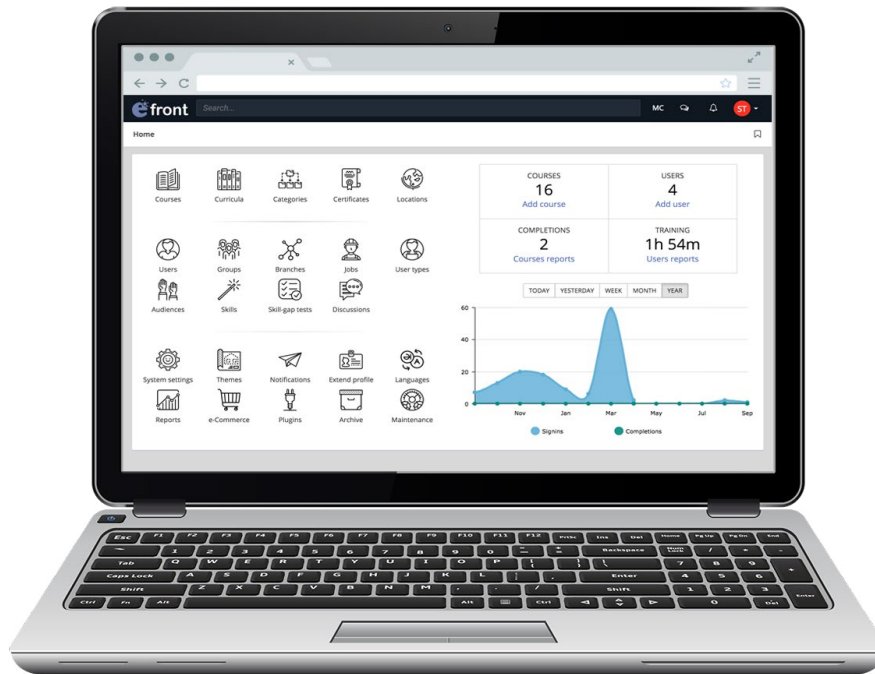

Extended Enterprise Training

Built to scale to any partner or customer network beyond your enterprise, eFront equips you with all the tools to ensure your channel has the information required to effectively, and accurately represent your products and services.

What makes eFront unique?

eFront offers a unique balance of power and flexibility to make managing your training a breeze:

Flexible deployment

Countless customization options

Extensive security settings

Hundreds of integrations

Advanced LMS features

Flexible

deployment options

Choose between the benefits of a self-hosted and a private cloud LMS.
eFront gives you the flexibility of having either.

SELF-HOSTED:

Host eFront on your own servers. A self-sustained solution that is accessible even offline. Your IT team will be in full control of every aspect of your LMS. A leading choice for finance, healthcare and other highly regulated industries.

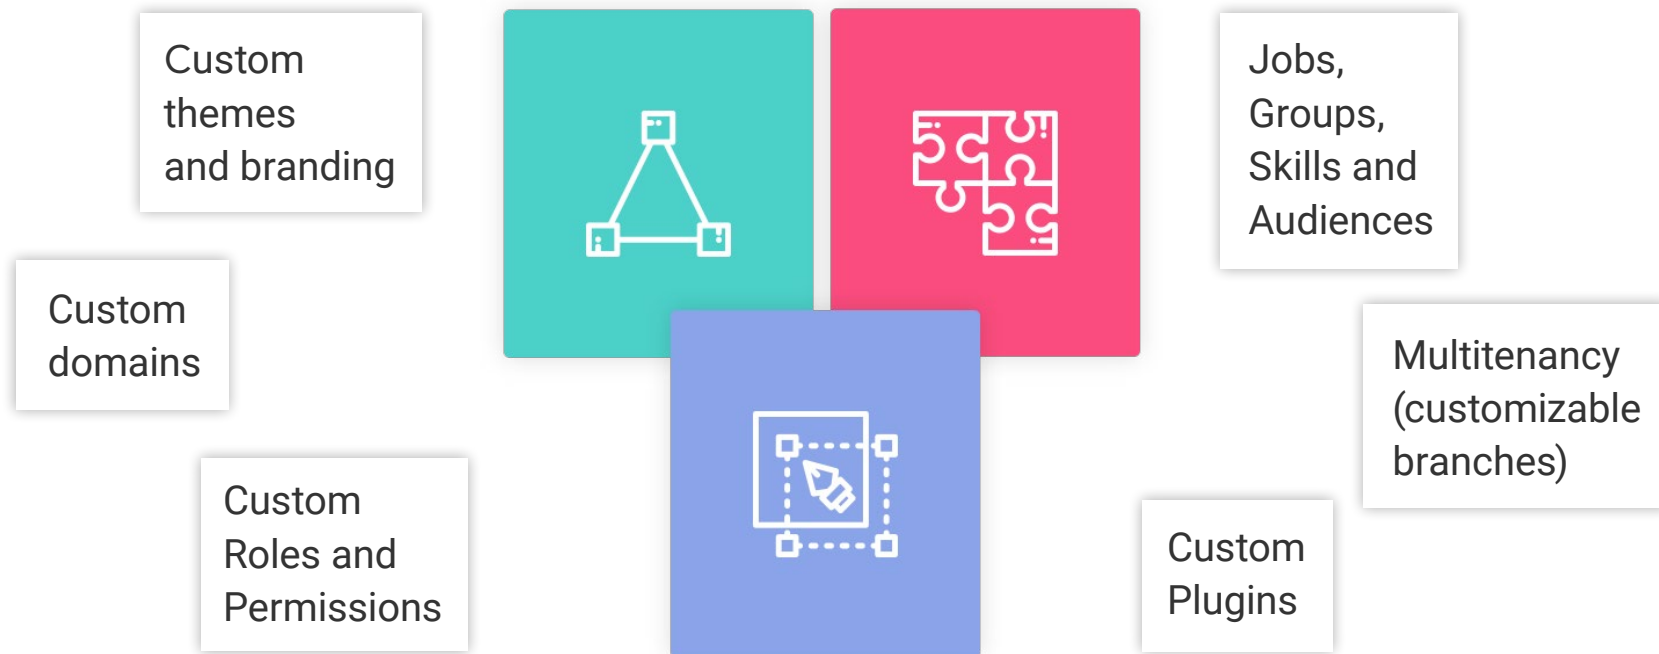

PRIVATE CLOUD:

Get a fully managed private cloud environment for your LMS and access your training online from anywhere with all the support you need from our team.

A highly customizable experience

Customize all aspects of your eLearning environment, from the look and feel of your portal to how your training is organized:

Advanced security settings to protect your data

With eFront, all your security & privacy requirements are covered with a wealth of security configuration options.

Enterprise-ready SSO options:

- Active Directory
- SAML 2.0
- LDAP
- 2 Factor Authentication

Extended security configuration:

- Fine-grained user roles
 - Strong passwords
 - IP whitelisting
 - Audit logs
 - SSL configuration
-

Hundreds of integrations to fit your needs

With 32 native integrations and hundreds enabled through Zapier, eFront gives you the flexibility you need to connect with nearly any other system in order to streamline your processes.
